Adopt-A-Horse Sponsorship

With a $250 donation, **you can sponsor one of our therapy horses for one month** and help provide the individualized care they need throughout the year. Sponsorship helps cover needs beyond routine shoeing and vaccinations, including specialized supplements, medical care, and other individualized support.

You won't take a horse home—but you'll become an important part of their care team and help them continue changing lives for children, adults, and veterans at Eos.
